Tri-Energetic Playshops are based on three convictions: we all want inner peace, we all have something we want to change or accept, and all these things are easier to achieve in a loving supportive environment. Playshops are a residential group experiences designed to give participants a new lease on life through a unique mix of psychological interventions, yoga, shamanistic ceremonies, music, and mantra chanting. For over thirty years, Playshops were led by Rickie Moore, Ph.D. and Henry Marshall, Ph.D. and inspired newcomers to personal development as well as seasoned professionals to experience laughter that is as a healing as tears. Today, Henry and his team carry on Playshops, offering personal work that is playful.

This 4 day TE Playshop will take place from August 14 - 18th, 2019 in Austria, starting at 18:30 on Wednesday and ending at 12:30 on Sunday with a joint small lunch. For your participation, we kindly ask EUR 480,- tuition.
